Employee at Smart Factory s.r.l.

Smart Factory is a production house based in Turin where I was involved in the entire video production process.

I significantly improved my skills as a camera operator and Ronin operator, camera assistant, focus puller, and gained in-depth knowledge of various camera types. I have always been particularly interested in cinematography, another aspect I have extensively explored over the years thanks to the excellent lighting equipment at my disposal. I also handled the entire post-production phase, from Editing to Motion Graphics to Color Correction.
